| HYDRED113                                           | MACH II floor nozzle, aluminium                                                       | 172.69 €   |
| HYDRED117                                           | MACH II hose shut-off with ball valve 2", C-Storz coupling                            | 94.20 €    |
| HYDRED134                                           | MACH II drain hose, 6 m , 2x C-Storz coupling                                         | 144.75 €   |
| SZ702                                               | MACH II suction hose extension, 12 m, 1x sockets, 1x connector                        | 150.84 €   |
| TOR108                                              | MACH II suction hose, 12 m                                                            | 153.83 €   |
| TOR109                                              | MACH II drain hose, 12 m, 2x C-Storz coupling (also serves as a drain hose extension) | 150.84 €   |
| TOR158                                              | MACH II hose reinforcement / kink protection                                          | 7.90 €     |
| IND2000-2                                           | MACH II suction pipe, 120 cm, ø 50 mm                                                 | 47.52 €    |
| HYDRED136                                           | MACH II pressure hose (fire hose), 2x C-Storz, 15 m, C42                              | 99.00 €    |
| HYDRED138                                           | MACH II pressure hose (fire hose), 2x C-Storz, 15 m, C52                              | 89.00 €    |
| HYDRED139                                           | MACH II pressure hose (fire hose), 15 m, B75                                          | 119.00 €   |
| <b>SPARE PARTS MACH II</b>                          |                                                                                       |            |
| HYDRED113-2                                         | MACH II squeegee set with plastic strip for floor nozzle HYDRED113                    | 18.90 €    |
| HYDRED152                                           | MACH II socket, black, complete                                                       | 17.56 €    |
| HYDRED180                                           | MACH II air filter cover                                                              | 20.92 €    |
| HYDRED181                                           | MACH II starting capacitor for the turbine                                            | 49.60 €    |
| HYDRED182                                           | MACH II rear wheel axle                                                               | 34.80 €    |
| FAN2015                                             | MACH II cable entry                                                                   | 35.65 €    |
| SZ358                                               | MACH II head gasket                                                                   | 14.02 €    |
| SZ4_3                                               | MACH II handle bar bracket (on the tank)                                              | 28.00 €    |
| SZ4_4                                               | MACH II screw for handle bar holder                                                   | 3.80 €     |
| SZ4_50                                              | MACH II circlip for rear axle                                                         | 2.45 €     |
| SZ4_53                                              | MACH II spare pump cable                                                              | 24.30 €    |
| TOR                                                 | MACH II On/Off switch                                                                 | 20.92 €    |
| TOR-1                                               | MACH II plastic cover for the On/Off switch                                           | 16.80 €    |
| TOR100-1                                            | MACH II pump wheel for the sewage pump                                                | 42.90 €    |
| TOR103                                              | MACH II PVC angle 90° for suction inlet inside the tank                               | 16.80 €    |
| TOR111                                              | MACH II closure clip for suction head                                                 | 22.64 €    |
| TOR113                                              | MACH II C-coupling for suction and discharge opening                                  | 16.64 €    |
| TOR114                                              | MACH II hose clamp ø 40-60 mm, 12 mm wide for TOR125                                  | 3.13 €     |
| TOR119                                              | MACH II rubber gasket 2", tank inlet C-coupling                                       | 6.50 €     |
| TOR123                                              | MACH II handle bar                                                                    | 45.00 €    |
| TOR125                                              | MACH II long C-Storz coupling with hose connection                                    | 24.62 €    |
